# Marcelle Yanari Yamaguti

Frontend/Mobile Developer

Multitalented Mobile and Front End developer with experience in mobile and web apps software industry. Demonstrated excellent skills in ReactJS, JavaScript and Flutter. True team player with strengths in adaptability and accuracy.

Lots of experience integrating front end and mobile applications to Rest APIs, Firebase, AWS services and various types of custom backend. I'm very enthusiastic about clean code principles and I am also familiar with techniques like Kanban to keep track of the project's workflow while making heavy use of Gitflow to version code.

## • Work History

2021-09 -  
Current

### Software Developer

MultTV, São Paulo, São Paulo

Development of multiplatform apps with **Flutter** SDK for iOS, Android and Set-Top Box devices. Use of software platforms like webOS (LG TV) and Tizen (Samsung TV) to develop SmartTV applications.

2019-10 -  
2020-03

### Front End Developer

wepulse, São Paulo, São Paulo

Developed and maintained a health services web platform using **ReactJS**, Redux, Styled Components and SASS. Making use of SCRUM and Kanban techniques and code versioning with Gitflow. Designed and updated layouts to meet usability and performance requirements.

2019-03 -  
2019-10

### Front End Developer

Análise Editorial, São Paulo, SP

Created company's website from scratch using **ReactJS**, Redux and CSS Modules. Making use of tools like React Spring for more advanced and fluid animations and creating from scratch a custom carousel (slider) since the existing ones available didn't match the website's needs.
